

# Evidence Assessment

## Code of Rights

### A Guide for Completing Evidence Assessment

---

The below interview questions can be used by coordinators to illustrate that learners are able to apply the information they have learnt in relation to their own role and place of work. In addition to the corresponding Altura Learning course, assessors may need to provide learners with local organisational resources and policies in order for them to demonstrate this knowledge.

The assessment should be conducted by an assessor who is competent in the principles and obligations of providers to comply with the Code of Rights.

### Interview Questions
