

Quick Reference Guide

Documenting in a Care Environment

SBARR Method

Situation

Look at the resident's diagnosis and their current health condition.

Background

Look at the resident's medical history.

Assessment

This involves looking at the current problem, observing the resident and noting any treatments given.

Recommendation

This is the recommendations of the RN. It includes who should be responsible for what and the timeframe that things should occur.

Review

What has been the effect of the action/intervention?
