

# 10 TIPS FOR CLEANING

Perform hand hygiene between tasks.

Follow the colour coding system.

Determine the PPE required.

Complete checklists after every task.

Ensure appropriate use of chemicals.

Change the dust bag daily, or when 3/4 full.

Identify the location of the biohazard spill kit.

Mops or brooms should not lift from the floor when cleaning.

Start cleaning at the point farthest from the door.

Clean from the top down.
